A Project report submitted in partial fulfilment of the requirements for the award of degree of Master of Science (Data Science) of CHRIST (Deemed to be University)

AUGUST - 2026

CHRIST
(DEEMED TO BE UNIVERSITY)
BANGALORE | DELHI NCR | PUNE

CERTIFICATE

It is certified that this project report entitled ***PROJECT TITLE*** *has been submitted to CHRIST (Deemed to be University), Bangalore, as project work, as partial fulfilment of the requirement for the award of the degree of* ***MASTER OF SCIENCE (Data Science)****. This work has been completed by* ***STUDENT NAME (Reg. no.)*** *under my supervision and he/she has put in the required attendance.*

Head of the Department **Project Guide**

ACKNOWLEDGEMENT

I would like to express my sincere gratitude to all those who have contributed to the successful completion of my Specialization Project. Their support and guidance have been invaluable, and I am deeply thankful for their assistance throughout this journey.

First and foremost, I would like to extend my heartfelt thanks to **Dr**.**Fr Joseph C C, Vice-Chancellor**, **Dr. Fr. Benny Thomas, Campus Director, Dr. Joby Thomas, Dean, Dr. Fr. Biju K C**, **Campus Associate Director, Dr. Raghunanthan G, Associate Dean, CHRIST (Deemed to be University) Yeshwanthpur Campus** for letting us carry our specialization project of M.Sc Data Science in our Campus.

I would like to extend my heartfelt thanks to **Dr. Vinay M,** HOD of the Computer Science Department of CHRIST (Deemed to be University), Bangalore Yeshwanthpur Campus, for fostering a conducive learning environment that has been instrumental in shaping my academic experience.

I am also immensely grateful to my project guide, **(Respective Guide)** for her/his expertise, mentorship, and unwavering support throughout this project. Your patience and dedication to my growth as a data scientist have been instrumental in the successful completion of this project.

I would like to thank all the faculty members of the Department of Computer Science for their help to complete the project work successfully. Also, I would like to thank my fellow students and colleagues for their camaraderie, which made this academic journey both enjoyable and enriching. Last but not least, I want to express my gratitude to my family and friends for their unwavering support, understanding, and encouragement throughout this challenging but rewarding journey. Your belief in me has been a constant source of motivation.

In conclusion, this project would not have been possible without the guidance and support of the individuals mentioned above and the collective effort of everyone who played a part in my academic pursuit. Thank you all for your contributions, and I am deeply appreciative of your help.

PROJECT REPORT GUIDELINES-2026-2027

PAPER SIZE, BINDING, MARGINS, FONTS AND LINE SPACINGS

Instructions:

Font: Times New Roman

Font Size:

Chapter Title: 16 Bold (In Capital letters, Centered)
Side Headings: 12 Bold (In Capital letters)
All other text 12 (Normal text)

Line Spacing: 1.5

Paper Size: A4 [One side printing]

Hard binding: All Final Semester PG Major Projects
Color: White

Margins: Left margin: 1.5 inch
Right margin: 1 inch
Top: 1 inch
Bottom: 1 inch

Number of Copies: One Copy per Student

Number of Pages:

Final Semester PG : Minimum – 60 ; Maximum – 100

Header: Project Name (Left) and Page number (Right)

Footer: Department of Computer Science, Christ University
[with font size 10 for both header and footer; Include border line for header and footer]

PAGE NUMBERING

1. Lower-case Roman numerals (e.g., iii, iv, v) for the front matter/preliminary material from acknowledgements. No page numbering for TOC.
2. Arabic numbers (e.g., 1, 2, 3, etc.) starts from chapter 1. (This can be achieved by giving a section break)
3. No Header and footer for TOC, Certificate and Title Page.
4. Chapters, Sections, Subsections are numbered as per the following meaning: example
   1.3.2 stands for Chapter 1, section 3, Subsection 2.

IMPORTANT INSTRUCTIONS

1. Do not end a page with a title. Shift the title to the next page.
2. Do not end a page with a single line of a new paragraph, Start the new paragraph in the next page
3. Do not include Thumb index, transparency sheets etc., within the report.
4. Use a drawing canvas to start drawing the image.
5. Strictly follow the given format for bibliography.
6. Follow the guidelines for Screen shots/Diagrams.
7. Use automatic table of content option available in documentation tools (MS-Word, Open Office, etc.)
8. In Title page and Certificate page, M.Sc. course is to be mentioned as M.Sc. (Computer Science).

FIGURES AND TABLES

1. Position Figures and Tables as close as possible to the text where they are referred.
2. Figures and Tables should be numbered in ascending order for each chapter. Example second image in chapter 3 will be Fig 3.2.
3. The number of the figure, and its caption should be typed immediately below it in Times New Roman Size 10.
4. The number of the table and its caption should be typed immediately above it in Times New Roman Size 10.

ACKNOWLEDGEMENTS

5. Guide
6. All those who helped to complete the project

ABSTRACT

The abstract should condense the report to 200 words or less in single-space format. Do not include any sub-title or bullets in abstract. The abstract should contain:

a. the most essential background information
b. the purpose and scope of the project
c. major outcomes and recommendations

CONCLUSION

Rewrite the aim and objective of the project with a brief note on the major modules. Summarize the available features, results and limitations. Conclude with your future enhancements.

REFERENCES PAGE INSTRUCTIONS

1. In the body of your text refer to the source of your information by inserting consecutive numbers in brackets at the end of each segment of cited information—like this [1]. These reference numbers can also be inserted within a sentence [2], without changing the sentence's punctuation. You may also cite your reference in your text as follows: "As Smithsky [3] points out,..

2. Unless you are referring to a complete book or article, you will also need to identify the page number(s) of your source of information. Indicate exact page numbers of a source within your brackets after a comma [4, pp. 3-6], or by a simple rhetorical device in your text such as "However, on page 79 of [5] the author seems to contradict himself when he states. . ." If you must refer to more than one separate page or source in the same reference, use semicolons for separation: [6, p. 46; 7, pp. 29-31; 9, pp. 8-12].

3. Once you have numbered a source use the same number for all subsequent references to that source. References at the end of quotation marks "are punctuated with the period after the reference" [8, p. 23].

4. Always use square brackets around reference numbers [10, pp. 78-85] to distinguish from equation numbers, which are given in parentheses (6).

5. Single space individual references, with no indentation for a second or third line. Double space between separate references.

6. Use a common abbreviation for a journal title if there is one, e.g. IEEE Electron Device Lett. Otherwise give the full name of the journal.

7. End each entry with a period.

8. List each source only once on your reference page.

Books Format:

Author's last name, first name. *Book title*. Edition and other additional information. City of publication: Publisher, year.

[1] Allen, Thomas B. *Vanishing Wildlife of North America*. Washington, D.C.: National Geographic Society, 1974.

[2] Hyde, Margaret, and Elizabeth Forsythe. *Suicide: The Hidden Epidemic*. New York: Watts, 1986.

[3] Baron, Alvin. *Bud's Easy Research Paper Computer Manual For IBM PC's*. 3rd ed. New York: Lawrence House Publishers, 2000

Magazine & Newspaper Articles Format:

Author's last name, first name. "Article title." *Periodical title* Volume # Date: inclusive pages.

[1] Kanfer, Stefan. "Heard Any Good Books Lately?" *Time* 113 21 July 1986: 71-72.

Website or Webpage Format:

Author's last name, first name (if available). "Title of work within a project or database." *Title of site, project, or database*. Editor (if available). Electronic publication information (Date of publication or of the latest update, and name of any sponsoring institution or organization). Date of access and <full URL>.

Note: If you cannot find some of this information, cite what is available.

[1] Devitt, Terry. "Lightning injures four at music festival." *The Why? Files*. 2 Aug. 2001. 23 Jan. 2002 <http://whyfiles.org/137lightning/index.html>.

[2] Dove, Rita. "Lady Freedom among Us." *The Electronic Text Center*. Ed. David Seaman. 1998. Alderman Lib., U of Virginia. 19 June 1998 <http://etext.lib.virginia.edu/subjects/afam.html>.

[4] Kanfer, Stefan. "Heard Any Good Books Lately?" *Time* 113 21 July 1986: 71-72.

[5] Devitt, Terry. "Lightning injures four at music festival." *The Why? Files*. 2 Aug. 2001. 23 Jan. 2002 <http://whyfiles.org/137lightning/index.html>.

Appendix

Use the appendices to avoid interrupting the body of the report with excessive detail, thereby improving readability. Number the appendices with a structure like: A, A.1, B, etc. The appendices might include, but are not limited to:

a. A "Users Manual" or instructions for operating and maintaining the system you've designed.
b. Additional charts, graphs and tables.
c. Mathematical derivations, proofs, etc.
d. Detailed calculations (theoretical developments, error and sensitivity analyses, etc.)
e. Budget status.
f. Gantt chart and/or other planning information.
g. Division of labor within the group: what did each member accomplish for the project and for the report?
h. An analysis of the "design concepts" topics (e.g. health and safety) given separately. Indicate how your design is affected by each topic.
